Technology

Welcome!

We hope that this booklet is helpful as you complete your application for admission to Praxis International Institute. Please contact us if you would like to arrange a tour of the school prior to submitting an application.

General Information

Praxis International Institute is an integrated learning centre for youth who are interested in preparing for post secondary education, employment or self-employment, or who are interested in language training and/or sustainability workshops.

We believe that the world becomes what you teach it to become and we provide every student with the knowledge, the tools and the motivation to be conscientious choice makers and engaged change-makers for a restored and healthy humane world for all.

It is our belief that if we simply teach a child the individual subjects of math, and science and language we would be doing that child a huge disservice in the face of the dramatic changes facing us. For the first time in history, the world we are preparing our children for will be vastly different than the world their parents grew up in. So in addition to the subjects listed above, we need to teach about the interconnected issues of economic sustainability, environmental preservation, human rights, and international cultural issues. And we need to teach our youth to not just assimilate and survive in the living environment that is handed them once they graduate, but how to actually create the new environment they want to exist in and how to thrive within it. It is our goal to graduate a generation of "solutionaries" who will be the change-agents to make their world happen.

People who are keen to accept the challenge of an enriched and experiential education experience; are eager to stretch their minds and creative potential; and are interested in learning in a diverse environment will thrive in the Praxis community.

General Admissions Process

The Admissions Process helps youth and their families become more familiar with Praxis International Institute; and we to become better acquainted with

an applicant. It helps us determine whether our school is a good fit and a place where they will learn and prosper.

The following forms are to be submitted to Praxis International Institute to complete the Application Process for youth 18 and under. Programs for Adults have a separate application process.

Required items	Optional items
<ol style="list-style-type: none"> 1. Parent Application Form 2. Student Application Form 3. A non-refundable application fee 	<ol style="list-style-type: none"> 1. A copy of recent school report card. 2. A Confidential Reference Form (<i>see below</i>)

If time is of the essence, to speed up the application process, please submit the parent and student application forms and the application fee immediately. The reference form can be submitted separately at a later date.

Once the application has been submitted, our admissions officer will contact you to ensure we have received the required documentation. Should an interview be required, it will be arranged at this time via phone or Skype.

Confidential Reference Form

While we use the school report as part of our decision making process, grades are of minor importance. We recognize that for various reasons, some of the brightest young people do not get the best grades. More important to us is their potential so we ask for a reference from a recent teacher or school administrator to be returned directly to us.

We also realize that often it is difficult to have a reference form completed due to circumstances outside the family's control. If that is the case please let us know so we can make other arrangements.

Admission Decisions

After receiving and reviewing the completed application, the Admissions team will make a decision generally within one week. We acknowledge that whether an applicant is accepted or not, time is of the essence to the applicant. Because of this, notification will be made as quickly as possible.

FURTHER INFORMATION

In order to provide the necessary support for each student, it is best that the school have a complete understanding of the student's educational needs and learning style. Is there any other information that about your child that you feel the school should know to enable us to best help your child integrate well into the boarding school environment? (*ie. social, medical, dyslexia, A.D.D./A.D.H.D. etc.*)

Why are you considering a change in your child's school?

What are your expectations for your child at Praxis International Institute?
